### **USDA Rural Development**

Rural Development can help very low- to moderate-income customers realize the dream of home ownership through guaranteed or direct home loans.

- Our Guaranteed Rural Housing Program agrees to guarantee a loan so the lending institutions can help buyers while incurring less risk. Buyers need no down-payment and private mortgage insurance is not required, creating more affordable monthly payments.
- Our direct program offers 33 – 38 year fixed rate mortgages with payment subsidies based on income level.
- Rural Development can also provide 504 Home Repair loans to very low-income customers to improve or modernize their home, make it safer or more sanitary, or to remove health hazards. These loans can be for up to 20 years and have a one percent locked-in interest rate.
- Grants may also be available for elderly households who are unable to repay a loan to remove health hazards.
